### CAREER OBJECTIVE:

Driven Full Stack Developer committed to delivering exceptional digital solutions. Seeking a challenging role in an innovative company to utilize my expertise in Java development and agile methodologies, contributing to regulatory reporting projects and fostering innovation within a dynamic team environment.

### PROFESSIONAL EXPERIENCE:

#### Software Developer

#### Tata Consultancy Services (TCS)

August 2022 - Present

- **Front-end Development (Angular):** Developed and maintained user interfaces with Angular, collaborating closely with UI/UX designers to implement visually appealing front-end components and seamlessly integrating them with the backend for end-to-end functionality.
- **Back-end Development (Java, Spring Boot):** Designed, developed, and maintained server-side logic using Java and the Spring Boot framework. Implemented and optimized RESTful APIs to facilitate communication between the front-end and back-end. Worked on the development of microservices, ensuring modularity and scalability of the application.
- **Database Management (SQL, Oracle DB):** Designed and maintained Oracle databases, writing and optimizing SQL queries for efficient data manipulation and retrieval. Ensured data integrity, security, and performance in database interactions. Collaborated with database administrators to optimize database structures and configurations.
- **Integration and Deployment:** Integrated front-end and back-end components using appropriate tools and technologies. Collaborated with DevOps teams to implement and optimize continuous integration and deployment pipelines.
- **Client Collaboration:** Collaborated closely with clients, comprehending their requirements, and translating their visions into fully functional websites.
- **Team Synergy:** Worked harmoniously with diverse teams, promoting effective communication and ensuring seamless collaboration to build top-tier websites.
- **Quality Assurance:** Conducted rigorous website evaluations to guarantee reliability, security, and swift loading times, delivering superior-quality websites to clients.

In my capacity as a Software Developer, I focus on developing user-friendly websites while optimizing both frontend and backend elements.
